Genevieve Flight - Priestess of Lunar Logos (P.L.L.) and Ancient Healing Initiator @ Solar, Lunar and Planetary Logi via Shambhallah Healing Center

Genevieve has been working with various kinds of people in many Countries of the World in matters of Spirituality, Health, Healing, Veganism and gaining higher consciousness. She has devoted her time and life working very hard towards helping people understand how diseases affect our body and how the food we eat, our habits, lifestyle, our thoughts and actions connect spiritually to this hidden phenomenon outside the realm of Science or limited narrative we have been taught all through our lives. As an Ancient Healing Initiator, Genevieve's main focus and that of the Ancient Healing Masters at Shambhallah Healing Center is to change people's belief system about irreversibility of all kinds of illnesses through introduction and initiation of various ill health reversal protocols as everybody is aware that the World has been misinformed for many centuries that certain health conditions are irreversible e.g. Autism, Dementia, Diabetes, Stroke, Huntington's disease etc.

The Reversal Treatments include but not limited to:

- 1- Brain Tonic for reversing Brain disorders of all kinds e.g. Autism, Dementia, Stroke, Alzheimer's, Parkinson's disease, Epilepsy, Psychosis, Huntington's etc
- 2- Vivid Eye Tea for reversing various kinds of Eye problems e.g. Short sight, long sight, Astigmatism, Cross Eyes, Diabetic Retinopathy, Pterygium, Macular degeneration, Cataract, Glaucoma etc.
- 3- Auto immune Capsules for reversing various Auto immune disorders e.g. Brain, Breast, Lung, Colon, Prostrate, etc.

"Wisdom always transcends ignorance and limiting beliefs. Extraordinary minds venture into setting people free."

Feel free to contact us anytime, as we will be happy to help resolve your health issue irrespective of whatever it is.

Happy Valentine's Day!

Art by Mandy

I'm an artist known as Art by Mandy UK or Art by Mandy. I was born in Derbyshire UK. I'm a self-taught artist. I work in drawings and acrylics and mixed media paintings. I enjoy helping others in need through charitable events by donating my art at least once a year. I've been an artist since a child and became a professional artist in 2007. This year I was approached by Andres Salcedo from Mercedes Benz for a charitable auction an event aimed at raising charitable funds to aid education for children in Zambia. The theme of the work is based on Mercedes Benz the company. The event was hosted by Andres Salcedo the manager of Mercedes Benz of Derby UK. Andres approached me via LinkedIn and asked if I wished to take part, I accepted. My art work titled "Spirit of Mercedes" is inspired by Mercedes Jellinek she was the daughter of the founder Emil Jellinek he named his company and all cars after his daughter Mercedes the artwork is now sold and can be seen via my social media channels. After being made redundant from my job for the 2nd time in 2008 and out of work for 6 months I literally created my work by becoming a self-employed artist, it became my business. I began with a shared studio with a local photographer known as Leading Imagery. Then in 2011 I needed more of my own space so eventually I set up my own studio and art gallery then known as "Muse." I wanted to expand and give more artists opportunities to exhibit, it was wonderful, a whirlwind year but it wasn't smooth running as the recession deepened again just over a year later in 2012. Sadly, I decided to close the gallery, but I was not going to give up my artwork I have been working from my home-based studio since. I continue to exhibit and meet up with the artists who exhibited with me, we all occasionally exhibit at other venues together we are usually drawn together by a local project or a charitable event. I mostly enjoy helping others in need through the selling of my art, usually a charity at least once a year. My usual charity is #twitterartexhibit for which I do a postcard sized painting every year. I love #twitterartexhibit founded by David Sandum of Norway they set up an art exhibition in a different country once a year and raise money for a local project which helps others in that area. This year it is Australia and they are supporting Pegasus Riding for the Disabled in Canberra. I'm also an artist designer for VIDA and I agreed to work with them after receiving an invitation to join them as a designer. I like the fact they make a positive change by supporting the factory workers in other countries by funding literacy programs to educate their workers VIDA are also planet friendly and produce ZERO WASTE. I am an artist and I like working on my dreams. Be kind and helpful to others. I like to give advice to my young colleagues "work hard, it may take time to achieve your goals in life, it can also be tough there will be really tough times try to think positively about what you can do to move on to the next chapter, learn from your mistakes and keep reaching for your dreams and never give up."
